## **Education and employment**

- Full professor of Mechanics of Solids and Structures at BioRobotics Institute, Scuola Superiore S.Anna, Pisa, since 20.12.2017
- Full professor of Mechanics of Solids and Structures at SISSA, Trieste, since 20.12.2002
- Director of the research group 'Multiscale Phenomena in Materials' at the Max Planck Institute for Mathematics in the Sciences (1998-2002)
- Ricercatore (assistant professor), Università di Roma *Tor Vergata* (1990-1998)
- Postdoctoral Associate, Dept. of Mathematics, Carnegie Mellon University (1993-1994)
- PhD in Mechanics, University of Minnesota, 1992
- Laurea (cum laude) in Ingegneria Civile, Università di Napoli *Federico II*, 1987

## **Research and publications**

His research interests concern mathematical modelling of biological systems (e.g., motility of biological organisms and of bio-inspired robots), pattern formation driven by rough energy landscapes, mathematics-driven discovery of new material properties. This research is mostly based on theoretical and computational mechanics and on the calculus of variations.

He is author of 170+ peer-reviewed papers published on **multi-disciplinary** journals (Proceedings of the National Academy of Sciences USA, Proceedings of the Royal Society, Advanced Science, ...) and on specialist journals covering a broad spectrum of disciplines from **mathematics** (Archive Rat Mech Analysis, Calc Var and PDEs, SIAM J Math Analysis,...) to **physics** (Phys Rev Letters, Nature Physics, Phys Rev Fluids, ...), to **engineering** (J Mech Phys Solids, Macromolecules, Comp Methods in Applied Mechanics and Engineering, Advanced Materials, J Neural Engineering, Int J Nonlinear Mech, Int J Solids and Structures, IEEE Trans Biomedical Eng, ...). His H-index is 41 according to Scopus, and 50 according to Google Scholar.

## **Visiting positions and invited lectures**

He has a broad international experience (visiting research appointments at University of Minnesota, Universite' Paris XIII, Joliot-Curie Chair at ESPCI Paris, Institute for Mathematics and its Applications-Minneapolis, Isaac Newton Institute for Mathematical Sciences-Cambridge), and has lectured in many leading universities in Italy, Europe (Cambridge, Oxford, Warwick, Ecole Polytechnique, Paris 6, 11, and 13, ESPCI, Universities of Bonn, Hannover, Stuttgart, Technical Universities of Berlin, Munich, Vienna, Lisbon, Universitat Politecnica de Catalunya; Charles University in Prague, University of Ljubljana), in the US (Caltech, UCLA, Harvard, MIT, Tufts, Courant Institute at NYU, Princeton, University of Pennsylvania, Penn State University), in Japan (Universities of Tokyo and Kyoto, Tohoku and Ochanomizu Universities), and China (Fudan and Shanghai Jiao-Tong Universities, Hong Kong University of Science and Technology).

Invited lecturer at CISM, Udine (Advanced School on 'Rank-one convexity, Quasiconvexity and Polyconvexity in Applied Mechanics', 2007; Advanced School on 'Mechanics and Electrodynamics of Magneto- and Electro-Elastic Materials', 2009; Advanced School on 'Variational Approaches to Damage', 2013; Advanced School on 'Computational Biomechanics - Advanced Models and Methods', 2020).

He has been invited to give courses on the 'Mechanics of cell motility' at the 36th Ravello Summer School of Mathematical Physics in 2011, at the Institute d'Etudes Scientifiques de Cargese in 2012, and on 'The Mathematics of Mechano-Biology' at the Cetraro International Mathematical Summer Centre (CIME) in 2018.

## **Plenary lectures**

He has been invited speaker at many international conferences, and plenary speaker at:

- UZI-SIP 2024 Joint national congress of the Italian Zoological Union and of the Italian Protistology Society, invited plenary speaker at the Symposium 'Beyond the boundaries of Zoology: multi-inter-trans-disciplinarity in Zoology', Pisa 2024.
- Coupled 2023, 10<sup>th</sup> International Conference on Coupled Problems in Science and Engineering, Chania (2023)
- ICTAM 2020, Sectional plenary lecturer in Solid Mechanics, Milano 2021
- 2019 Gordon Research Conference on Liquid Crystals, Discussion leader (USA, 2019)
- 11<sup>th</sup> European Conference on Mathematical and Theoretical Biology (Lisbon, 2018)
- 19<sup>th</sup> International Conference on Finite Elements in Flow Problems (Rome, FEF 2017)
- 5<sup>th</sup> Italian National Congress of Bioengineering (Naples 2016)
- SIAM Conference on Mathematical Aspects of Materials Science (Philadelphia, 2013)
- XI Congresso Nazionale SIMAI (Politecnico di Torino, 2012)
- 8th European Symposium on Martensitic Transformations (Prague, 2009)
- 7th Euromech Solid Mechanics Conference (Lisbon, 2009)
- GAMM2004 (Dresden, 2004)

## **Organization of scientific workshops and international conferences (selection)**

- 5<sup>th</sup> African Conference on Computational Mechanics, Cape Town 2022 (member of the Scientific Committee)
- SIAM Conference on Mathematical Aspects of Materials Science, Bilbao 2021 (member of the

Scientific Committee)

- 25<sup>th</sup> Congress of the European Society of Biomechanics, Vienna 7-10 July 2019 (member of the Scientific Committee)
- MicroMotility2019: International workshop on biological motility and bio-inspired micro-robotics, Istituto Veneto di Scienze, Lettere e Arti, Venezia 25-29 March 2019
- CISM Advanced Schools on ‘Mechanobiology of the Cell: theory and experiments on the mechanics of life’ (2024), on ‘Mechanobiology of Cells and Tissues: Motility and Morphogenesis’ (2014), on ‘Brittle Fracture and Plastic Slip: from the Atomistic to the Engineering Scale’ (2008).
- The first IEEE-RAS International Conference on Soft Robotics – RoboSoft 2018, Livorno, 24-28 April 2018 (co-chair of the interdisciplinary program)
- Euglena Day – A satellite workshop to IEEE-RAS RoboSoft 2018, Research Center on Sea Technologies and Marine Robotics, Livorno, 23 April 2018
- Annual European Rheology Conference 2018, Symposium on Living and Active Matter, Sorrento, 17-20 April 2018
- 14<sup>th</sup> International Conference on Free Boundary Problems (FBP2017), Shanghai Jiao Tong University, 9-14 July 2017 (member of the Scientific Committee)
- International Workshop on Mathematical Problems for Orientationally Ordered Soft Solids, BIRS-Casa Matematica Oaxaca, 5-9 September 2016
- International workshop on “Advances in the Mathematical Analysis of Material Defects in Elastic Solids”, SISSA, Trieste, 6-10 June 2016
- 8<sup>th</sup> International Liquid Crystal Elastomer Conference and Workshop on Active Liquid Crystals and Gels (21<sup>st</sup> International School on Liquid Crystals). Centro di Cultura Scientifica Ettore Majorana, Erice (2015)
- Workshop on ‘Solid and Active Liquid Crystals’ organized within the programme ‘Mathematics of Liquid Crystals’, Isaac Newton Institute, University of Cambridge (2013)
- workshop series on “Material Theories” at the Mathematisches Forschungsinstitut Oberwolfach (2007, 2009, 2013, 2017)
- Workshop on ‘Mathematics and Mechanics in the Search for New Materials’, Banff International Research Station (2013)
- School and Workshop on ‘Mathematics and Physics of Soft and Biological Matter’, Abdus Salam International Center of Theoretical Physics, Trieste (2011)
- SIAM Conference on Mathematical Aspects of Materials Science, Philadelphia (2008)
- workshops ‘Young Researchers in the Mechanics of Materials and Structures’ (2008-2014, yearly)

## Awards and Honors

- Special grant from Istituto Nazionale dell'Alta Matematica INdAM F. Severi for research on 'Mathematical Challenges in Nanomechanics' (2006)
- Keith Medal of the Royal Society of Edinburgh (2007)
- Prix La Recherche for sustainable mobility (2010)
- Outstanding Paper Award from the Japanese Liquid Crystal Society (2011)
- Visiting Fellow, Newton Institute and Clare Hall (University of Cambridge, January-July 2013)
- Life member, Clare Hall, University of Cambridge (since 2013)
- Corresponding member of Accademia Pontaniana, scientific academy founded in Naples in 1458 (elected in 2013)
- Recipient of an ERC Advanced Grant (ERC-2013-AdG - 340685\_Micro-Motility, 2014-2019) and of an ERC Proof of Concept Grant (Stripe-o-Morph, 2022-2024)
- EuroMech Fellow (elected in 2015)
- Visiting Fellow, Corpus Christi College (University of Cambridge, September 2017- August 2018)
- Joliot-Curie Chair at ESPCI, Paris (2018)
- Visiting Scholar, Pembroke College (University of Cambridge, January - July 2019)
- Humboldt-Forschungspreis (2019)
- Corresponding member of Istituto Veneto di Scienze Lettere e Arti, scientific academy founded in Venice in 1810 (elected in 2021)
- CISM Segretario Generale (elected in 2022)
- Elected member of the Italian Academy of Engineering and Technology (elected in 2024)
- ERC Starting Grant 2024: Chair of Panel PE8 (Process and Product Engineering)

## Editorial Boards

- Applied Mathematics Research eXpress (2003-2012)
- Continuum Mechanics and Thermodynamics (2005-2012)
- SIAM Journal of Mathematical Analysis (2007-2012)
- Mathematical Problems in Engineering (2012-2013)
- Journal of Nonlinear Science (2012-2017)
- Networks and Heterogeneous Media (2005-2020)
- Acta Applicandae Mathematicae (2014-2022)
- International Journal of Nonlinear Mechanics (since 2014)
- Soft Robotics (since 2014, Associate Editor since 2024)
- Frontiers in Robotics and Artificial Intelligence (since 2018)
- Mathematics in Engineering (Editor-in-Chief) (since 2018)
- Meccanica (since 2021)
- Mechanics Research Communications (since 2021)
- Biomimetics (since 2024)

## Service

- SISSA Director delegate for Technological Transfer (2008-2012)
- elected member to the SISSA Academic Senate (2012-2016)
- member of the Scientific Committee of the Consortium for Advanced Research on Naval Engineering of Friuli Venezia Giulia (Ditenave, renamed Mare<sup>TC</sup> FVG in 2015)

- member of the Scientific Council of the International Center for Mechanical Sciences (CISM, Udine) (since 2012)
- member of the Italian ASN committee 08-B2 Scienza delle Costruzioni (National Scientific Habilitation to the roles of Associate Professor and Full Professor in the Mechanics of Solids and Structures) (2012-2014)
- member of the Commission de recrutement du département de Mécanique de l'Ecole Polytechnique, Palaiseau, France (2019-2021)
- member of the PE8 panel for the evaluation of ERC Starting Grant proposals (2020, 2022, 2024)

### **Research groups and laboratories**

He has coordinated several multi-disciplinary research groups, listed below, and focusing on mathematical problems in the applied sciences (in particular, on the mechanics of materials and on the mechanics of biological systems). The approach used to pursue these problems has been to combine development and analysis of mathematical models, their numerical simulation, and the comparison of theoretical and numerical results with experimental evidence (either available from the collaboration with external laboratories, or acquired through in-house experimental activities).

- Independent research group on '**Multiscale Phenomena in Materials**' at Max Planck Institute for Mathematics in the Sciences, Leipzig, Germany (from 1998 to 2002)
- **SISSA Mathlab**: the laboratory for Applied Mathematics at SISSA (<http://mathlab.sissa.it/>), Trieste (founder, 2010)
- **SAMBA**: laboratory for Sensing And Moving Bio-inspired Artifacts (<http://samba.sissa.it/>), Trieste (founder, 2012)
- **MENSA Observatory**: ModEling-and-Numerical-Simulation-Assisted laboratory at The BioRobotics Institute of Scuola Superiore Sant'Anna, Pisa (founder, 2024).

## **Short Bio**

Full Professor of Structural Mechanics at SISSA (Trieste) since 2002 and at Scuola Superiore Sant'Anna (Pisa) since 2017. He is co-author of more than 170 peer-reviewed papers on the mathematical modeling of cell motility, the mechanical properties of new materials, of soft and biological matter, of pattern formation driven by rough energy landscapes, electromagnetism and phase transformations. He has held research appointments at Carnegie Mellon University, University of Minnesota, Universite' Paris XIII, Max Planck Institute for Mathematics in the Sciences-Leipzig, Institute for Mathematics and its Applications-Minneapolis, Isaac Newton Institute for Mathematical Sciences and Engineering Department of the University of Cambridge, at ESPCI in Paris (Chaire Joliot-Curie). Plenary speaker at GAMM2004 (Dresden), 7th Euromech Solid Mechanics Conference (Lisbon, 2009), 8th European Symposium on Martensitic Transformations (Prague, 2009), SIAM Conference on Mathematical Aspects of Materials Science (Philadelphia, 2013), 11<sup>th</sup> European Conference on Mathematical and Theoretical Biology (Lisbon, 2018), ICTAM 2020 (Milano), Coupled 2023 (Chania). Lecturer on "Mechanics of cell motility" at GNFM Summer School of Mathematical Physics (Ravello, 2011), Institute d'Etudes Scientifiques (Cargese, 2012), CIME (Cetraro, 2018). Co-organizer of several international conferences. Recipient of the Keith Medal of the Royal Society of Edinburgh in 2007, Prix La Recherche in 2010, "Outstanding Paper Award" from the Japanese Liquid Crystal Society in 2011, Humboldt Forschungspreis in 2019, of an ERC Advanced Grant (2013) and an ERC Proof of Concept Grant (2022). Elected member of Accademia Pontaniana (Naples), of Istituto Veneto di Scienze Lettere e Arti (Venice), of Accademia Italiana di Ingegneria e Tecnologia (ItaTech), and Euromech Fellow since 2015. Member of the scientific committee of CISM, Udine, of the Advisory Committee on Liquid Crystal Elastomer Conferences, and member of the editorial board of several international journals.

## LIST of PUBLICATIONS

### Peer-reviewed journal articles and contributions to volumes:

1. R. Norouzikudiani, L. Teresi, A. DeSimone: Self-oscillations of submerged liquid crystal elastomer beams driven by light and self-shadowing. Submitted to *J. Elasticity* (2024).
2. F. Alouges, I. Anello, A. DeSimone, A. Lefevre-Lepot, J. Levillain: Some mathematical models for flagellar activation mechanisms. DOI:10.48550/arXiv.2409.03506
